

Connecting Europe Facility (CEF) Digital Matchmaking for Ukraine - Digital Global Gateways

- 06 September 2022

- online

The European Commission, in cooperation with the Ukrainian Ministry of Digital Transformation, will host a matchmaking event on 6 September.

The event will provide an overview of the upcoming call for Digital Global Gateways and will **highlight the opportunities for cross-border cooperation to finance redundant backhaul connections between the EU and Ukraine**. Bringing together Ukrainian and EU stakeholders to discuss practical aspects of the call, the event aims to connect participants in order to facilitate joint submissions for the future Digital Global Gateways call.

The event takes place on 6 September between 10:00-11:45 CEST.

Participants will include:

- Telecommunication and technology companies
- European networks, associations and representative bodies
- Broadband Competence Offices
- Representatives of the European Institutions

Explore the agenda and register now.

Please note that this event will be recorded and streamed for information sharing purposes of the European Commission. To understand more about your participation to online, physical and hybrid events organised by the BCO Network Support Facility, you can read our Privacy Statement.
