

The GATEKEEPER Open Call is now open

The GATEKEEPER project is an EU-funded initiative under the Horizon 2020 Framework Programme. Its main objective is to create a GATEKEEPER that connects healthcare providers, businesses, entrepreneurs, elderly citizens and the communities they live in. This connection between stakeholders will promote an open, trust-based arena for matching ideas, technologies, user needs and processes, aimed at ensuring healthier independent lives for senior people.

In this Open Call, GATEKEEPER offers the opportunity to third parties to contribute to the development and sustainability of the project, working in a European environment and getting financial support.
