

## Apply for a spot at the ICT 2020 Exhibition! - Event cancelled

We have been closely monitoring the situation with COVID-19, and after much consideration, the European Commission together with the German Presidency have made the decision to cancel the ICT 2020 conference, due to take place 1-3 December in Cologne.

As the nature of the event lies particularly in the personal exchange and networking of the digital community, we have to prioritise the health and safety of the ICT stakeholders.

However, we will explore the possibility to bring you this unique event in 2021. More updates will be shared in September.

Stay safe, informed and connected!

Koelnmesse

Entry North Koelnmesse

For three days you will be able to bring your amazing results to the attention of a large and international audience of researchers, scientists, policy makers, strategists and investors.

We will select EU funded projects or initiatives to demonstrate how they have brought ICT research a step further and how they have pushed innovation to a new level.

The exhibition will link today's state-of-the-art research and innovation to the forward-looking ideas about the future, which will be presented at various conferences organised during the event.

Submit your application by 28 May 2020, 17:00 CET.

## We are looking for:

- Successful projects/startups/innovations funded by current or recent EU Programmes
- Significant research project results which are ready to be displayed and innovative services/products that have been on the market for less than 2 years
- Start-ups with market-ready innovative services or products that are looking for opportunities to enter the market
- Projects which are bringing changes to their field, sector or area of application
- Projects with an impact on people and society
- Attractive high-tech project demos
- A display of successful international collaborations with EU's key global partners

## What we offer:

- An international audience of around 5 000 delegates
- An online catalogue presenting your project or organisation
- A place to network with your peers and policy makers
- Opportunities to find investors, potential buyers or business partners in case of market-ready results
- An exploration of synergies between science, technology and art

## Interested?
