

## [European Cybersecurity Month \(ECSM\) 2021 is getting closer!](#)

The European Cyber Security Month (ECSM) is the EU's annual cybersecurity awareness campaign that takes place each October across Europe. The aim is to raise awareness of cybersecurity threats and promote cyber hygiene among citizens and organisations through education and sharing of good practices.

You can now propose online or physical awareness raising cybersecurity events for the 2021 official **European Cybersecurity Month 2021** [by registering an activity](#).

Each October, conferences, workshops, trainings, webinars, presentations and online quizzes take place across Europe to advance awareness of cybersecurity and build trust in online services.

The annual cybersecurity awareness campaign is coordinated by the European Union Agency for Cybersecurity (ENISA) and is supported by the European Commission, Europol, the European Central Bank, EU Member States, European Free Trade Association (EFTA) countries and more than 300 partners from the public and private sector.

More information about the campaign is available on its [official website](#).

You can also participate to the month long initiative by joining the cybersecurity awareness campaign on Twitter [@CyberSecMonth](#) by using hashtags **#CyberSecMonth** and **#ThinkB4Uclick**.
