## **Interinstitutional kick-off event for European Cybersecurity Month (ECSM) - 29 September 2021**

- 

29 September 2021

The European Cyber Security Month (ECSM) is the EU's annual cybersecurity awareness campaign that takes place each October across Europe. The aim is to raise awareness of cybersecurity threats and promote cyber hygiene among citizens and organisations through education and sharing of good practices. You can help us to kick it off on 29 September, by watching this thematic hybrid event!

ENISA

On 29 September, the EU institutions, bodies and agencies (EUIBAs) will get together virtually for the fourth time to kick off this important campaign ahead of the official launch the following day (#CyberSecMonth, @CyberSecMonth).

The full agenda and information about speakers can be found online.
