

## **European News Media Forum: industrial transformation**

•  
29 November 2021

- The Square (Brussels, Belgium) and online

The second European News Media Forum will bring together speakers from press, TV, radio, magazines, online media, and more to discuss industrial transformation.

Follow the streaming

After a first edition about the safety of journalists, this second European News Media Forum (ENMF) will focus on the challenges and innovations of European news media organisations. It will look into key topics for the industry: revenue streams, business models, community engagement, diversity, media convergence, new formats and partnerships.

We will explore these thematics with top European media executives from all over Europe and beyond, as well as with Commissioner for Internal Market Thierry Breton, and European Commission Vice President for Values and Transparency Věra Jourová.

Sessions will consist of a variety of formats: stage presentations, fireside chats, small panels and showcases. Registered participants will be able to interact with the speakers through Slido.
