

## The EU Digital COVID Certificate: a global standard with more than 591 million certificates

The Commission adopted this week a report on the EU Digital COVID Certificate and its implementation across the EU. The report shows that the EU certificate has been a crucial element in Europe's response to the COVID-19 pandemic, with more than 591 million certificates generated.

European Commission

The certificate, which covers COVID-19 vaccination, test and recovery, facilitates safe travel for citizens, and it has also been key to support Europe's hard-hit tourism industry. The EU Digital COVID Certificate is a success worldwide: it has set a global standard and is currently the only system already in operation at international level. 43 countries across four continents are plugged into the system, and more will follow over the coming weeks and months.
