Workshop on EDIH Co-funding mechanisms and issues related to the use of DIGITAL and RRF funding

This meeting, held with Member State representatives on November 15th, discussed and explained the use of RRF for co-financing EDIHs or financing additional EDIHs.

On 15/11/2021 an on-line information meeting provided the latest updates on EDIH Co-funding mechanisms and issues related to the use of DIGITAL and RRF funding.

Agenda

- Welcome and introduction by the Commission
- Presentation by the Commission on Co-funding modalities DIGITAL and RRF
- Member States questions
- Wrap up and close of meeting

Summary of the main themes discussed during the webinar

The EC presented the overview of the RRF/RRP process. Examples of Milestones and targets were given and a workflow to outline the envisaged process.

To avoid the problem of double funding the EC notes some solutions:

- Use the same proposal as a basis for the project.
- Sign two contracts, which are linked.
- Agree that DIGITAL will pay max 50% and RRP project will the other 50% of actual eligible costs.

All Member States were given the opportunity to provide questions in advance. These questions were used and answered within the presentation.

Conclusion:

Co-Funding between Digital and RRF is not only possible but also easy, providing careful attention is given to avoid issues of double funding.
