

## Working together for connectivity: the European Broadband Competence Offices Network 2017-2021

This year marks the conclusion of the first phase of the European Broadband Competence Offices (BCOs) Network initiative. Since its launch in 2017, the Network has grown from 10 BCOs to 105, who come together throughout each year to exchange knowledge and build capacity.

"The guiding beacon has always been the shared goal of bringing the best possible connectivity to all Europeans", notes Jan Dröge, Leader of the BCO Network Support Facility. Discover more about the journey and achievements to-date through this brochure as well as this video featuring the BCOs themselves.
