The Commission is holding an **online information and networking session on Digital Europe Programme call for proposals: Health data space – federated European infrastructure for cancer images data** under the work programme 2021/2022.

This 2.5-hour event is aimed at presenting the call topic in more detail and giving guidance to potential applicants on how to submit their proposal. It will also offer a networking possibility to potential applicants looking for consortium partners.

Participation is free of charge but registration is mandatory. The Commission will select the final list of speakers. The recording and materials from the event will be available online after the event to allow further collaboration among the interested stakeholders.

In order to attend please register by 7 March and indicate if you want to pitch your project idea or competence.

Please note that in case there are too many requests to pitch, we might have to adopt a first-come first-served approach, therefore don't wait until the last moment to indicate your intention to pitch and upload your presentation!
