

Europe sets out 6G vision at MWC in Barcelona
(<https://digital-strategy.ec.europa.eu/en/events/europe-sets-out-6g-vision-mwc-barcelona>)

- 01 March 2022

- MWC Barcelona, Stage B, Hall 5

The Smart Networks and Services Joint Undertaking (SNS JU) organised its launch event “On the Road to 6G” at the MWC Barcelona 2022, (previously the Mobile World Congress) in Barcelona on March 1st. Agenda and slides are now available for download.

The global race towards 6G has started. Building on the success of the 5G-PPP, Europe has recently launched a new strategic partnership. The [Smart Networks and Services Joint Undertaking](https://digital-strategy.ec.europa.eu/en/policies/smart-networks-and-services-joint-undertaking) (SNS JU) builds on two pillars: 6G research and innovation and 5G deployment actions funded by European or national funding programmes. In this session, some of its thought leaders set out the strategy and the tools to enable the sector community to develop technology capacities for 6G systems as a basis for future digital services towards 2030. This session was organised by the SNS Joint Undertaking in cooperation with the European Commission.

You can watch the [session](https://www.mwcbarcelona.com/agenda/session/on-the-road-to-6g) (for MWC pass holders), or read the [summary of the event](https://digital-strategy.ec.europa.eu/en/news/europe-sets-out-6g-vision-mobile-world-congress-barcelona).
