

## Open market consultation - Mobile system for filling salt silos

ASFINAG, the organisation overseeing Austrian autobahns seeks to streamline deployment of salt for winter maintenance.

Source: ASFINAG

ASFINAG, the public organisation responsible for the Austrian autobahns, seeks a solution to the following question: How can a mobile system for filling salt silos be designed and built to reduce the dependence on silo trucks for winter maintenance in a timely manner?

Submit your ideas for the design of such a system or key components by 19 July 2022 in order to express your interest to participate in the dialogue meetings with the procurer on 27 September 2022.
