

European Narrative Observatory to fight Disinformation post-COVID 19

- Opening: 29 July 2022

-

Closing: 22 September 2022

The objective of this Call for Proposals is to fund a project to analyse how emerging online and offline narratives are created and spread within European public discourse regarding some key societal issues.

The project will decipher the origins of these narratives, the relation between offline and online narratives, the emotional values that guide successful narratives, map sources and key actors active in the spreading of these narratives. The project will develop a methodology to better understand how narratives emerge and how to reconcile existing narratives with facts.

Please consult this page regularly, since we will use it to publish FAQs, or, if needed, addendums to the call documents (e.g. extension of call deadline, or other).

(If reading in another language, select the original in English to consult call documents.)
