

Group of Member States representatives on AI and Digitalisation of Businesses - Meeting of the European Digital Innovation Hub

The Group of Member States on AI and digitalisation of businesses aims to support the Commission in the implementation of the Coordinated Plan on Artificial Intelligence (AI), in the development of the AI Act, and in rolling out digitalisation of the economy, by sharing experiences and best practices. The working group of the European Digital Innovation Hubs (EDIHs) ministerial representatives, together with the Commission, aims to effectively deploy the network of EDIHs across Europe.

This meeting, held on 13 September 2022, provided the state of play of the grant preparation of the 136 EDIHs selected out of Call 1, the Digital Transformation Accelerator (DTA), and of the Call-2 process. Experiences in rolling out the EDIHs across the territories were shared and discussed. It focused not only on implementation, which is currently a high priority of the deployment of the EDIHs, but also started a discussion on how together we can achieve even more with the EDIHs for the digitalisation of the EU economy.
