

Consultation workshop "Chips for Europe" Initiative

Join other experts in shaping the Chips Act's "Chips for Europe" Initiative

As part of the ongoing consultation on the upcoming implementation of the "Chips for Europe" Initiative, as foreseen within Pillar 1 of the proposed Chips Act, we organised a virtual workshop on Thursday 29th September 2022. We presented the Commission's ideas on future **pilot lines** and a **design platform**, key components of the Commission's strategy to strengthen the semiconductor ecosystem in Europe and accelerate the process from the lab to the fab.

The day was divided in a morning session on the design platform and its implementation and an afternoon session on pilot lines and their implementation.

Please find below the presentations from the event:

- Welcome by Colette Maloney (HoU CNECT A3)
- Design platform:
 - Marco Ceccarelli (CNECT A3)
 - Romano Hoofman (imec)
 - Jean-Marc Talbot (Siemens)
 - Alec Vogt (Synopsys)
 - Thierry Dumaure (Cadence)
 - Neil Parris (ARM)
 - Patrick Pype (NXP)
 - Thorsten Edelhäußer (Fraunhofer)
 - Philippe Notton (SiPearl)
- Pilot lines:
 - Francisco Ibañez (CNECT A3)
 - Jo de Boeck (imec), Carlo Reita (CEA-Leti), Patrick Bressler (Fraunhofer)
 - Dominique Thomas (STMicroelectronics)

- Christophe Wyon (CEA-Leti)
- Wolfgang Dettmann (Infineon)
- Peter O'Brien (Tyndall)
- Markku Räsänen (IQM)
- Fredrik Tillman (Ericsson)

More presentations and a workshop report will be published soon!!
