
On 18 April 2023, the Commission proposed a targeted amendment to the EU Cyber Security Act.

@gettyimages

The proposed targeted amendment aims to enable, by means of Commission implementing acts, the adoption of European cybersecurity certification schemes for ‘managed security services’, in addition to information and technology (ICT) products, ICT services and ICT processes, which are already covered under the Cybersecurity Act. Managed security services play an increasingly important role in the prevention and mitigation of cybersecurity incidents.
