Following the publication of the first annual report on the State of the Digital Decade, the European Commission (DG CONNECT) organises an open workshop to discuss in detail the main findings of the report and to reflect on the possible ways to move forward from this wake-up call.
The State of the Digital Decade report is an important input for Member States at a time when they prepare their strategic national roadmaps outlining actions, policies and measures they will take to achieve the digital decade objectives and targets, including planned regulatory measures and investments.

Why this session?

The session aims to inform the audience about the existence of the report, to discuss its main findings and to gather feedback from digital transformation experts (European companies, consultancies and organisations) on suggestions for EU actions and priorities for the future.

Agenda and Speakers

The session will be divided into three parts:

10:00 – 10:30 – PART I: Introducing the State of the Digital Decade Report
