

## European Innovation Partnership on Smart Cities and Communities - Action Cluster Workshop Report

This workshop was held on 25 september 2019, alongside the Nordic Edge conference, in line with the strategy to bring EIP-SCC stakeholders together at a more recognised set of events occurring across Europe: notably, the Brussels General Assembly and Brno, Stavanger and Barcelona Smart City conferences. It was also held in the context of a number of important EC-supported dialogues held in Stavanger: the Mission workshop, Smart City Lighthouse learnings and new Programme welcome and the transition of the EIP-SCC Marketplace support contract to the new provider.
