

Proposal for a Regulation of the European Parliament and of the Council on roaming on public mobile communications networks within the Union

Regulation (EU) No 531/2012 expires on 30 June 2022, therefore the aim of this proposal is to extend it, while adjusting the maximum wholesale charges to ensure sustainability of the provision of retail roaming services at domestic prices, introducing new measures to increase transparency and ensuring a genuine 'roam-like-at-home' experience in terms of quality of service and access to emergency services while roaming.
