

[Technical assistance for broadband](https://digital-strategy.ec.europa.eu/en/library/technical-assistance-broadband) [\(https://digital-strategy.ec.europa.eu/en/library/technical-assistance-broadband\)](https://digital-strategy.ec.europa.eu/en/library/technical-assistance-broadband)

The European Union has made several technical assistance instruments available for the design and implementation of broadband programmes and projects. This guide offers an overview of the main sources for technical assistance for public administrations involved in the promotion of connectivity in Europe. You will find explanations of how EU funds can support setting up Broadband Competence Offices (BCOs), capacity building of BCOs, and project preparation costs, both for public and private investors.

BCO-SF

Brochure: Technical assistance for broadband

This guide is part of a [series of publications \(http://docs.bconetwork.eu/\)](http://docs.bconetwork.eu/) on EU support for broadband roll-out in Europe, produced for the European Network of Broadband Competence Offices ([BCO Network \(https://www.bconetwork.eu/\)](https://www.bconetwork.eu/)).
