

Robotics in upcoming Horizon 2020 calls: Information and Brokerage day

A match-making brokerage day for the robotics community took place on 18 December 2018 with over 200 participants in Brussels. Representatives from the European Commission and euRobotics provided the information needed to participate in the calls for proposals. Here below you will be able to see the slides for the presentations in case you missed it.

During the brokerage day the EC representatives presented the details of the call for proposals, ICT-09-2019-2020 Robotics in Application Areas and ICT-10-2019-2020 Robotics Core Technology (Deadline: 28 March 2019). euRobotics provided additional information, including on newly selected Digital Innovation Hubs, and the proposers had the possibility to present their project ideas or expertise to the audience, offering them an excellent networking opportunity to complement their consortium.

There were also presentations and poster sessions during the day.

- Agenda

The morning session

- ROBOTICS in H2020 -ICT-2018-2020 - Cécile Huet, European Commission
- NMBP Programme: TOPICS FACTORIES OF THE FUTURE (FOF) - Jan Ramboer, European Commission
- SPARC in the Workprogramme - David Bisset, Executive Director, euRobotics

Digital Innovation Hubs

RODIN and the DIH networks in Robotics - Reinhard Lafrenz, euRobotics

- DIH-HERO: Digital Innovation Hubs in Healthcare Robotics - Dr. Françoise J. Siepel, University of Twente
- DIH²: A Pan-European Network of Robotics DIHs for Agile Production - Coordinator: Ali Muhammad, Riikka Virkkunen, research manager, VTT Technical Research Centre of Finland
- TRINITY: Digital Technologies, Advanced Robotics and increased Cyber-security for Agile Production in Future European Manufacturing Ecosystems - Asst. Prof. Roel Pieters, Tampere University of Technology
- RIMA: Robotics for Inspection and Maintenance - Christophe Leroux, CEA LIST
- AI4EU: An AI on-demand platform and ecosystem – How proposals may interact with the AI4EU platform – Patrick Gatellier, THALES
- ROSIN: ROS-Industrial Quality-Assured Robot Software Components, Andrzej Wasowski, IT University of Copenhagen
- RobMoSys: Composable Models & Software for Robotics Systems, Huascar Espinoza, CEA
- ESMERA: European SMEs Robotics Applications, Dr Sotiris Makris, LMS

- ROBOTUNION: The PAN-European Robotics Acceleration Program, Roi Rodriguez, FundingBox

Ideal-ist: The best place to benefit from H2020's know-how, know-what, know-who and knowledge!, David Kolman, FFG

Tips for proposers, Cécile Huet, European Commission
