

## **Final report available - Benchmarking of innovation procurement investments and policy frameworks across Europe**

Want to know how much the public sector in your country invests in adopting innovations and in which sectors they invest most (health, ICT..)? Keen to find out if your country has an action plan, target, financial incentives and a competence center for innovation procurement? Check out the results of the EU wide benchmarking of national policy frameworks and investments on innovation procurement across Europe. Now available: Final report, executive summary, country profiles of all 30 benchmarked countries as well as presentations and video of the final workshop that presented the results.

Study SMART 016/0040 benchmarked the national policy frameworks for innovation procurement and the national investments on public procurement of innovative solutions (PPI) across Europe. This includes an analysis of investments across different sectors of public interest (e.g. health, transport, security etc.) and strategic expenditure categories, in particular ICT, that fuel public sector modernization. The EC has added also the benchmarking for R&D procurement investments across Europe to get the full picture of 'all' innovation procurement investments (R&D+PPI procurement).

Benchmarking of total innovation procurement investments (R&D + PPI procurement): EC report

Benchmarking of national policy frameworks for innovation procurement and national investments on PPI procurement:

- Final study report (EN) and Executive summary (EN, FR, DE)
- Annex to the final study report: Country profiles (benchmarking of innovation procurement policy frameworks + benchmarking of PPI investments + benchmarking of investments in PPI procurement of ICT-based solutions)

- Material of the final study workshop - 12 October 2020Workshop agenda
- Presentations
- Video (morning / afternoon)
- Q&A
- Material of the first kick-off workshop of the study - 7 September 2017
- Workshop agenda
- Presentation of the study - Giovanna Galasso
- European Innovation Scoreboard - Daniel Bloemers
- Open TED / How to analyse European procurement data - Jachym Hercher
- Digital Economy and Society Index / EDPR country profiles - Balazs Zorenyi

- National initiatives in Estonia - Paul Jaakson
- National initiatives in Austria - Eva Buchinger
- National initiatives in Germany - Wolfgang Crasemann
- National initiatives in Spain - Juan Manuel Garrido Moreno
- National initiatives in the Netherlands - Floris den Boer
- National initiatives in Sweden - Niklas Tedeklev
- Tender specifications of the study (explaining scope and objectives of the study)
