State of the Union: Commission proposes a Path to the Digital Decade to deliver the EU's digital transformation by 2030

The Commission has proposed this week a Path to the Digital Decade, a concrete plan to achieve the digital transformation of our society and economy

by 2030. The proposed Path to the Digital Decade will translate the EU's digital ambitions for 2030 into a concrete delivery mechanism. It will set up a governance framework based on an annual cooperation mechanism with Member States to reach the 2030 Digital Decade targets at Union level in the areas of digital skills, digital infrastructures, digitalisation of businesses and public services. It also aims to identify and implement large-scale
