

New Commission report shows the importance of digital resilience in times of crisis

The Commission has released the results of the 2020 Digital Economy and Society Index (DESI), which monitors Europe's overall digital performance and tracks the progress of EU countries with respect to their digital competitiveness.

European Commission

This year's DESI shows that there is progress in all Member States and all key areas measured in the index. This becomes all the more important in the context of the coronavirus pandemic, which has demonstrated how essential digital technologies have become, by allowing work to continue, monitoring the spread of the virus, or accelerating the search for cures and vaccines.
