

## Digital Economy and Society Index (DESI) 2020

The Digital Economy and Society Index (DESI) monitors Europe's overall digital performance and tracks the progress of EU countries in their digital competitiveness.

All reports download as pdfs. For the country reporting, they are available in English and in the country's official language(s).

## Digital Economy and Society Index 2020 - Key Findings

The DESI 2020 reports are based on 2019 data. The United Kingdom is still included in the 2020 DESI, and EU averages are calculated for 28 Member States. The DESI was re-calculated for previous years to reflect the changes in the choice of indicators and corrections made to the underlying data. The scores and rankings may thus have changed compared with previous editions.
