

NIS Cooperation Group

About the NIS Cooperation Group

The NIS Cooperation Group functions according the <u>European Commission Implementing Decision of 1 February 2017</u> (https://eur-lex.europa.eu/legal-content/EN/TXT/PDF/?uri=CELEX%3A32017D0179&from=EN) and follows its own <u>rules of procedure (.pdf) (https://ec.europa.eu/newsroom/dae/document.cfm?doc_id=51975)</u>. The European Commission serves as the secretariat of the Group. The Cooperation Group meets regularly. The European Commission publishes the <u>agendas of all NIS Cooperation meetings (https://digital-strategy.ec.europa.eu/en/library/nis-cooperation-group-meetings-agendas)</u>.

On the operational side, the NIS Cooperation Group is supported by the work of the network of Computer Security Incident Response Teams (CSIRTs), dedicated to sharing information about risks and ongoing threats, and cooperating on specific cybersecurity incidents. The CSIRTs network was established under Article 12 of the NIS Directive, which also defines its role. The NIS Cooperation Group provides strategic guidance for the activities of the CSIRTs network.

The NIS Cooperation Group is also working closely with the <u>European Cooperation Network on Elections</u> (https://ec.europa.eu/info/policies/justice-and-fundamental-rights/eu-citizenship/electoral-rights/european-cooperation-network-elections_en) to counter threats to electoral processes under a new joint operational mechanism set-up as a part of the <u>European Democracy Action plan</u> (https://ec.europa.eu/info/strategy/priorities-2019-2024/new-push-european-democracy/european-democracy-action-plan_en

Members

The NIS Cooperation Group is composed of representatives of the EU Member States, the European Commission and the EU Agency for cybersecurity (ENISA) (http://www.enisa.europa.eu/). The Chairmanship is position is filled by the Member State holding the Presidency of the Council of the European Union (EU) (http://www.consilium.europa.eu/en/council-eu/presidency-council-eu/).

Every EU Member State has designated a <u>single point of contact (.pdf)</u> (https://ec.europa.eu/newsroom/dae/redirection/document/97902)on the security of network and information systems that is responsible for ensuring cross-border cooperation with other Member States and with the Cooperation Group.

Publications

Among the key outputs of the NIS Cooperation Group, there are non-binding guidelines to the EU Members States to allow effective and coherent implementation of the NIS Directive across the EU and to address wider cybersecurity policy issues.

Since its establishment, the Group has published the following documents:
