PRESS RELEASE | 18 February 2021

The Commission urges Poland to comply with EU rules on electronic communications networks and services

The Commission sent today a reasoned opinion to Poland for breaching EU law safeguarding the independence of the national regulatory authority (NRA), a key principle of the EU's telecom law. More specifically, the legal provisions amending the Polish Telecommunications Law that resulted in the early termination of the mandate of the Head of the Polish NRA – the Office for electronic communications, raise concern.

PRESS RELEASE | 04 February 2021

Commission opens infringement procedures

against 24 Member States for not transposing new EU telecom rules

The Commission has opened infringement procedures against 24 Member States for failing to enact new EU telecom rules. The European Electronic Communications Code modernises the European regulatory framework for electronic communications, to enhance consumers' choices and rights, for example by ensuring clearer contracts, quality of services, and competitive markets. The Code also ensures higher standards of communication services, including more efficient and accessible emergency communications.

PRESS RELEASE | 21 December 2020

New EU telecom rules: latest actions in time for transposition deadline

21 December marked the deadline for Member States to transpose the new EU telecom rules into national law. The European Electronic Communications Code, which entered into force in December 2018, modernises the European regulatory framework for electronic communications, to enhance consumer's choices and rights, ensure higher standards of communication services, as well as boost investment for more connectivity and more digital innovation.
